Blanco

Magento Theme Instructions

Table of Contents

Introduction

We are happy to present our new Blanco Magento Template with integrated online payment facility.

We have done our best in bringing perfect color combination and jQuery banners to attract an attention of new customers to your online store. We used drop-down menus with transparency effects – it is easier for customers to search the store, which will save them time and will make it quicker to find and buy the desired item.

We have used the latest technologies and our highly qualified designers used their knowledge and experience for developing this product so that our customers could obtain satisfying return on their investment.

This template basically is a quick and easy way to set up and develop your online business independently.

Features

Highlight Features

AJAX Add to Cart

Zoom to enlarge product images (Setting from Admin Panel)

Product scrollbar (Setting from Admin Panel)

Custom DropDown Menu

Custom SlideShow

"Back to top" button (Setting from Admin panel)

Social networks bookmarks (Setting from Admin panel)

Frontpage New and Sale Products Scroll Panel

General Features

Template is fully compatible with magento verion: 1.6.x.x, 1.7.x.x

PSDs file supplied, easy to edit

SEO (Search Engine Optimization)-orient in design and development, fast loading

100% Tableless design. 100% HTML /CSS/DIV compliance

Valid XHTML and CSS markup

Well-structured and commented HTML & CSS for easy customization

Cross Browser Support (IE 8+, Safari, Mozilla Firefox, Chrome, Opera 9+)

Installation & Configuration

Thank you for purchasing the Blanco Magento Theme!
In this document, you will find step-by-step instructions for installing and using Blanco.

System Requirements

Blanco only supports Magento Community Edition 1.6.0.0, 1.6.1.1, 1.6.2.0 and 1.7.0.0 which can be downloaded from http://www.magentocommerce.com/download.
It does not support Magento Enterprise Edition and Magento GO. Before downloading Magento, make sure you meet the system requirements and test the compatibility of your server.

For help with installing Magento, please refer to the following links:

- [Magento System Requirements](#)
- [Server Compatibility Check](#)
- [Magento Installation Guide](#)
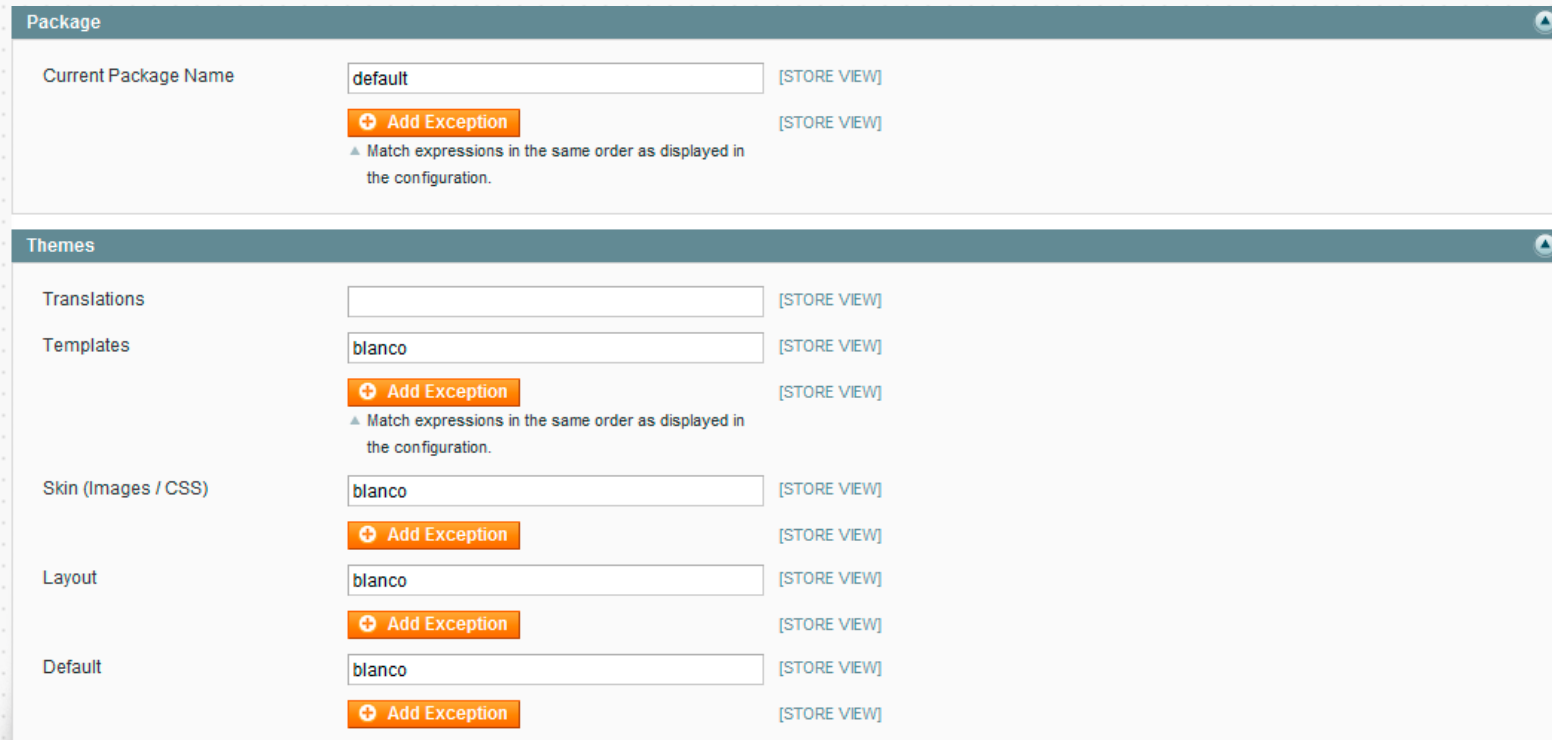

Installation & Configuration

Uploading Blanco

Before you begin the Blanco installation process, we recommend to back up your Magento installation and database.

To upload Blanco to Magento:

1. Unzip the downloaded **Blanco** folder.

2. Using an FTP client, copy the **app, js, media** and **skin** folders to the Magento software's root directory. If you are working with a Mac, please make sure you are merging the new folders with Magento and not replacing the Magento directory.

3. Log in to the Magento admin panel.

4. Go to '**System > Configuration**'. Click **Design** on the left-hand menu.

5. Under **HTML Head**, find the **Default** field and type **Blanco**.

Installation & Configuration

6. Scroll down to the **Header** section. In the **Logo Image Scr** field, type **images/logo.gif**. This is a sample logo that can be replaced with your own by uploading the file to the server and entering the new URL in this field.

 Blanco Magento Theme Instructions

Installation & Configuration

7. You can also enter an alt attribute for the logo in **Logo Image Alt** and a welcome message in **Welcome Text**. The welcome message will appear to the right of the logo at the very top of the page.

8. Scroll back to the top of the page and click the **Save Config** button.

9. Next, go to '**System > Cache Management**' from the top navigation menu. You will need to clear the store cache and all cookies.

10. Click **Select All** on the left side of the page. On the right side, select **Refresh** in the **Actions** drop-down menu and click the **Submit** button.

11. Finally, click the following buttons (in orange): **Flush Magento Cache, Flush Cache Storage, Flush JavaScript/CSS Cache**, and **Flush Catalog Images Cache** (optional).
Now you are ready to add content to your website.

Installation & Configuration

Categories and products

As to how properly create categories and products you need to go to the link and watch the video carefully
http://www.youtube.com/watch?v=L4VN66Bjsfs
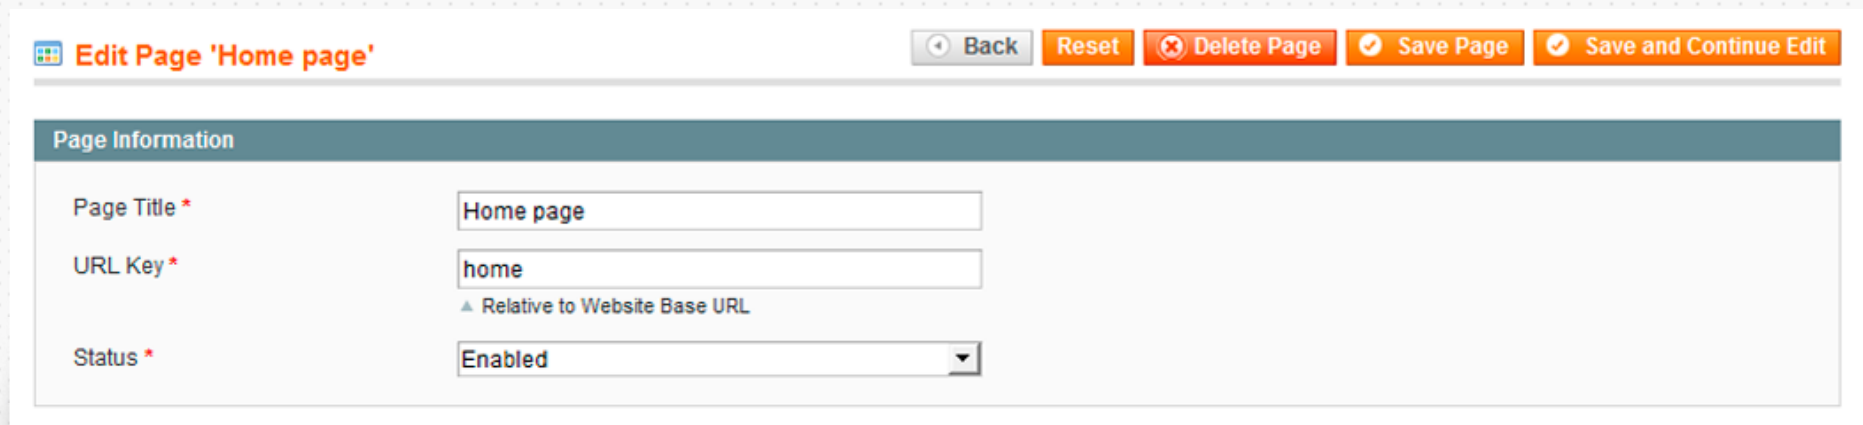

The Homepage

This section will help you create a Blanco homepage:
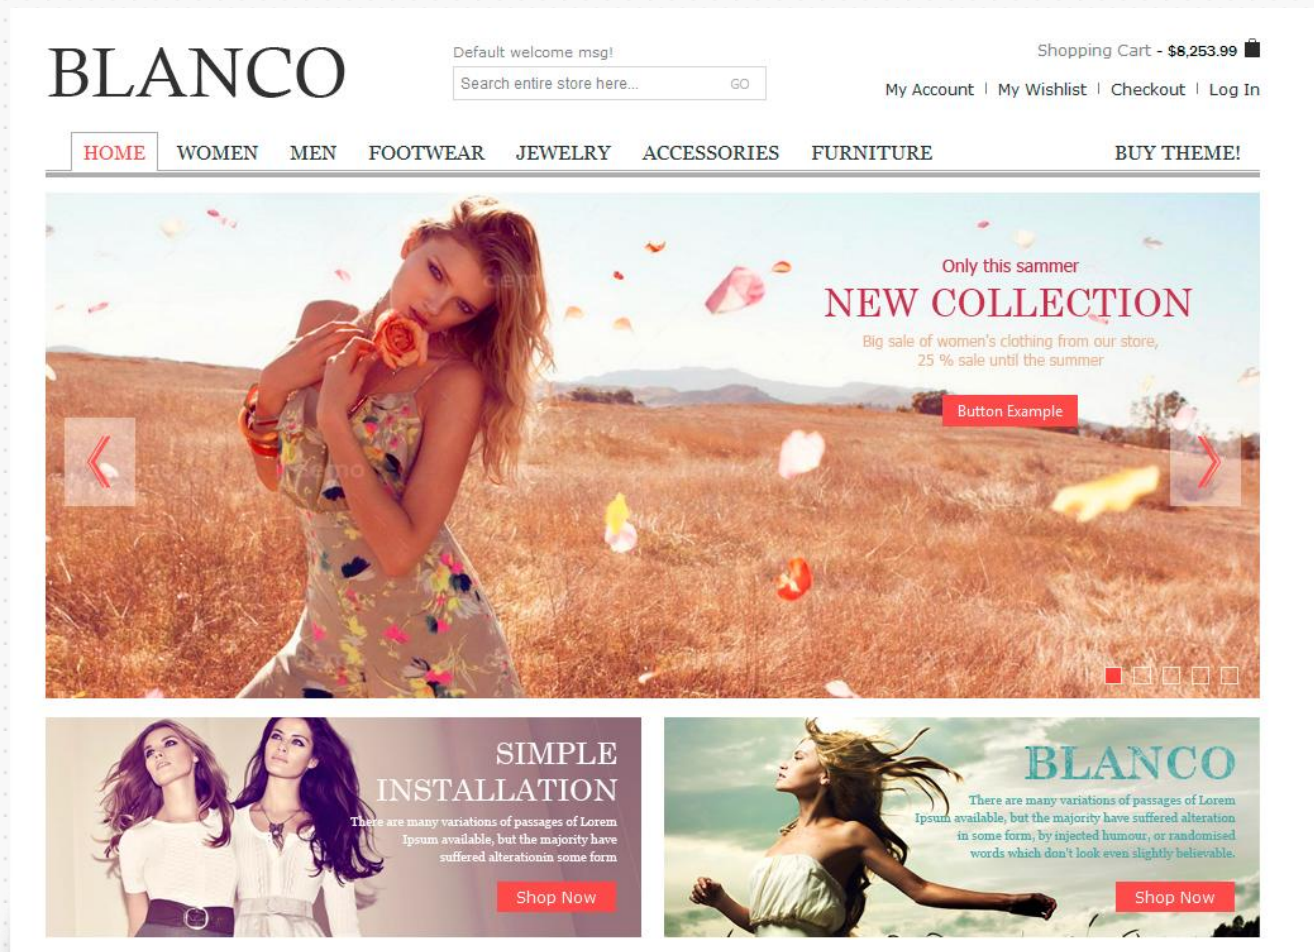

The Homepage

Setting the Page Layout

1. Select the homepage from '**CMS > Pages**'.

2. If you haven't done this already, enter a name for the page in **Page Title** and a fill in the **URL Key** field.

3. Select **Enabled** in the **Status** drop-down menu.

4. Click the **Save Page** button.
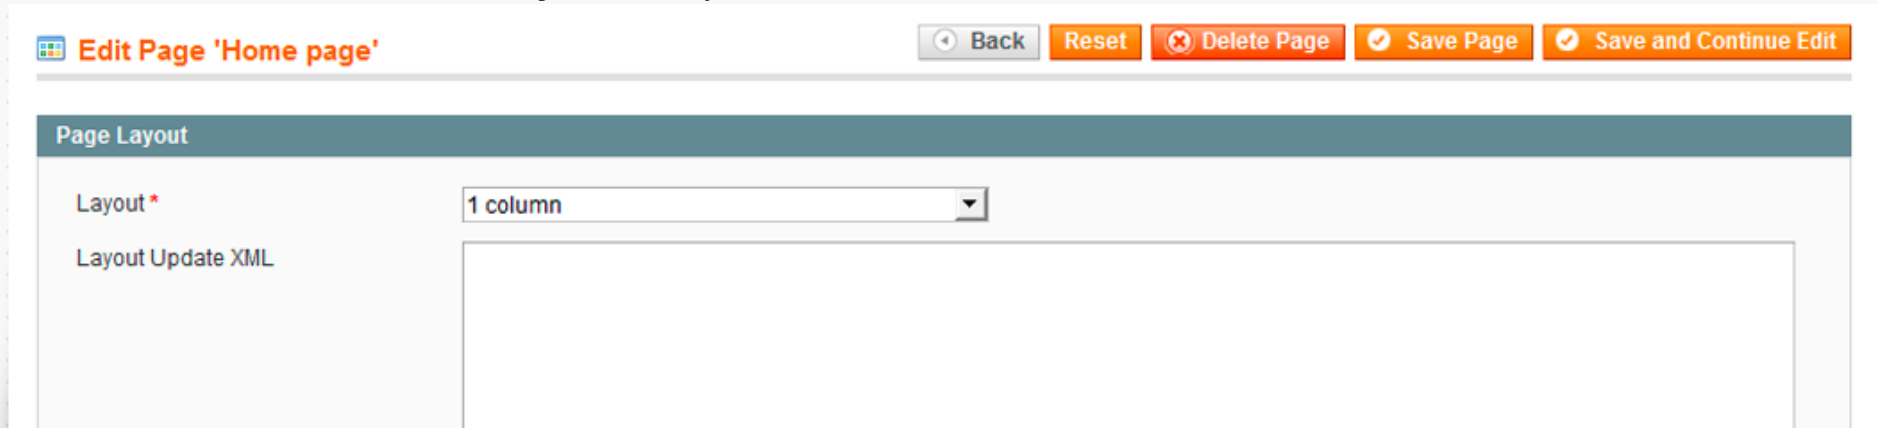

The Homepage

5. Select **Design** from the left-hand menu. The following page will appear:

6. Select **1 column** from the **Layout** drop-down menu.

7. In the **Layout Update XML** box, either remove the existing content or add the following comment tag around the existing content:

```
<!--<reference name="content">
<block type="catalog/product_new" (existing HTML code is here)
-->
```

8. Click the **Save Page** button.

The Homepage

Adding Content

To add content to your homepage:

1. Under '**CMS > Pages**', click on the homepage.

2. In the left-hand menu, click **Content**.

3. Click the **Show / Hide Editor** button to leave WYSIWYG mode and open the content editor.

4. Copy and paste the following code into the content editor to create the homepage:

Homepage

<h2 style="float: left; margin-bottom: 5px; margin-top: 13px; border-bottom: 1px solid #efefef; color: #818181;">Sale items</h2>
<div class="clear" style="height: 0;"> </div>
{{block type="catalog/product_special" name="blanco.catalog.product.special" alias="product_homepage"
template="catalog/product/special.phtml"}}</div>
```

Click the **Save Page** button.

Homepage
Slideshow

The slideshow on the homepage is a jQuery slider. Below is the code that generates the slider:

```
1.<div id="banner-rotator" class="royalSlider default">
2.<ul class="royalSlidesContainer">
3.<li class="royalSlide"> <img class="royalImage" src="{{media url="wysiwyg/blanco/slide.png"}}" alt="" />
4.<div class="royalCaption" style="left: 64%; top: 50px; width: 300px; color: #eaeaed;">
5.<div class="royalCaptionItem " style="right: 20px;"><img src="{{media url="wysiwyg/blanco/new_in1.png"}}" alt="" />
6.</div>
7.<div class="royalCaptionItem sgMidText" style="left: 0; top: 60px;"><img src="{{media url="wysiwyg/blanco/text1.png"}}" alt="" />
8.</div>
9.<div class="royalCaptionItem sgSmallText " style="left: 95px; top: 104px;"><a class="tintButton non-draggable"
10.href="/demo/blanco/furniture.html">Button Example</a></div>
11.</div>
12.</li>
```

Homepage
Slideshow

Key lines of code are explained below.

Line 1: The div class for the slider, **<div id="banner-rotator" class="royalSlider default"></div>**.

Lines 5: elemHover caption fromTop elemToHide slide-head – Is responsible for the upper sign "New Collection".

Line 7: elemHover caption fromBottom elemToHide slide-slogan – Is responsible for the main slide text.

Line 9-10: elemHover caption fromRight elemToHide slide-button – is responsible for the slide button. Here you can name your button.

The slideshow's dimensions are 960 x 400 pixels. If you change the slider's dimensions, please make sure to change CSS and JavaScript accordingly.

Homepage
Slideshow
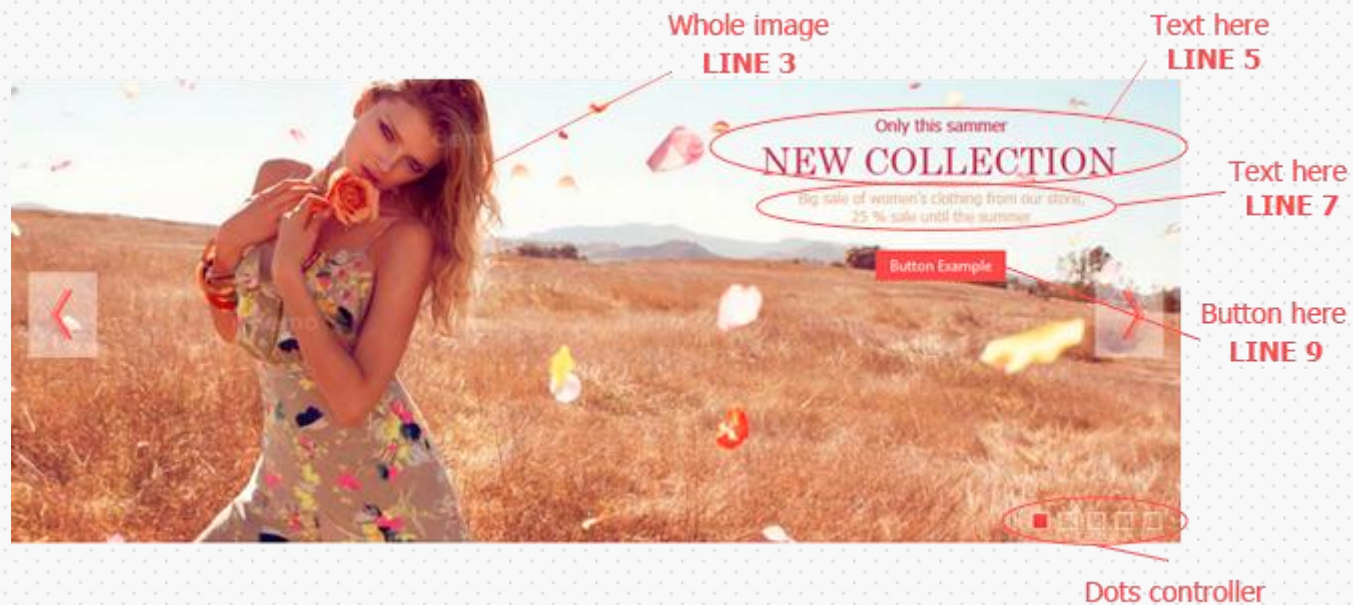

Footer
Footer Links

At the bottom of every page there is a footer with links (usually to other pages on the Web site) and the company's contact and copyright information. These sections are modified in different parts of the Magento admin. First, let's look at how to add the footer links, which are in a static block.

To add footer links:

1. Go to '**CMS > Static Blocks**'. Select **Footer Links** from the list. The identifier should be **footer_links**.

2. You will come to the following screen:
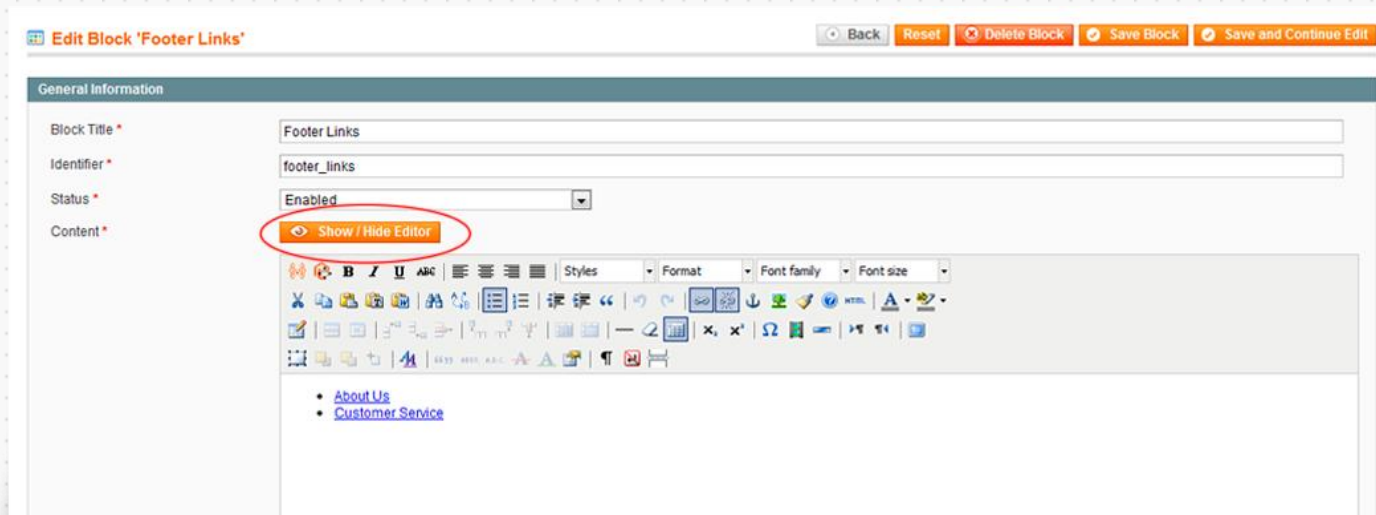

Footer
Footer Blocks and Payment Information

This footer blocks can be changed in the backend. Go to 'CMS -> Static Blocks', edit **footer_shipping** or create new if it doesn't exist:

```
<div class="shippingreturns">
<div class="shippingpolicy" style="width: 140px; float: left;">
<h4 style="font-weight: none !important;">Our Offers</h4>
<ul class="policy">
<li><a href="#">New products</a></li>
<li><a href="#">Top sellers</a></li>
<li><a href="#">Specials</a></li>
<li><a href="#">Manufacturers</a></li>
<li><a href="#">Suppliers</a></li>
<li><a href="#">Specials</a></li>
<li><a href="#">Service</a></li>
</ul>
</div>
<div class="shippingpolicy" style="width: 150px; float: left;">
<h4 style="font-weight: none !important;">Shipping Info</h4>
<ul class="policy">
```

Code continues on the next page...

```
<li><a href="#">Returns</a></li>
<li><a href="#">Delivery</a></li>
<li><a href="#">Service</a></li>
<li><a href="#">Gift Cards</a></li>
<li><a href="#">Mobile</a></li>
<li><a href="#">Gift Cards</a></li>
<li><a href="#">Manufacturers</a></li></ul></div>
<div class="shippingpolicy" style="width: 150px; float: left;">
<h4 style="font-weight: none !important;">Our Account</h4>
<ul class="policy">
<li><a href="#">Your Account</a></li>
<li><a href="#">information</a></li>
<li><a href="#">Addresses</a></li>
<li><a href="#">Discount</a></li>
<li><a href="#">Orders history</a></li>
<li><a href="#">Addresses</a></li>
<li><a href="#">Search Terms</a></li></ul></div>
<div class="shippingpolicy" style="width: 150px; float: left;">
<h4 style="font-weight: none !important;">Our Support</h4>
<ul class="policy">
<li><a href="#">Site Map</a></li>
<li><a href="#">Search Terms</a></li>
<li><a href="#">Advanced Search</a></li>

Click the **Save Page** button.

New Product Blocks

"New arrivals product in this month" on homepage

Edit a product and set certain value for attributes **Set Product as New from Date** and **Set Product as New to Date**.
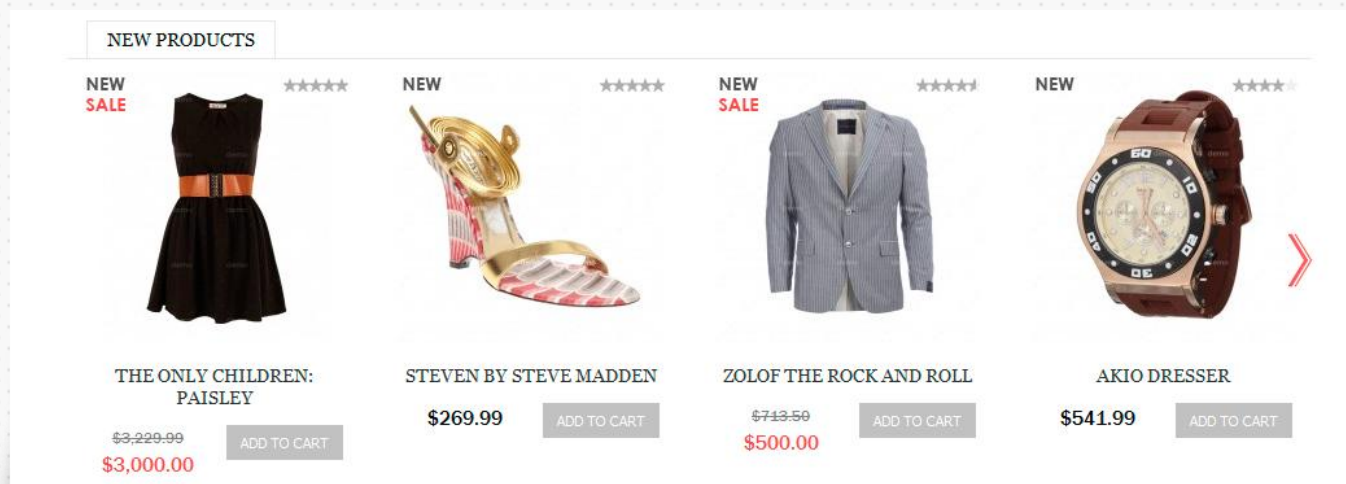

Sale Product Blocks

"Sale product in this month" on homepage

Go to product and chose **Prices** Tab, find **Special Price** and put the price for it, then put the values for **Special Price From Date** and for **Special Price To Date** and the product will be displayed on a home page
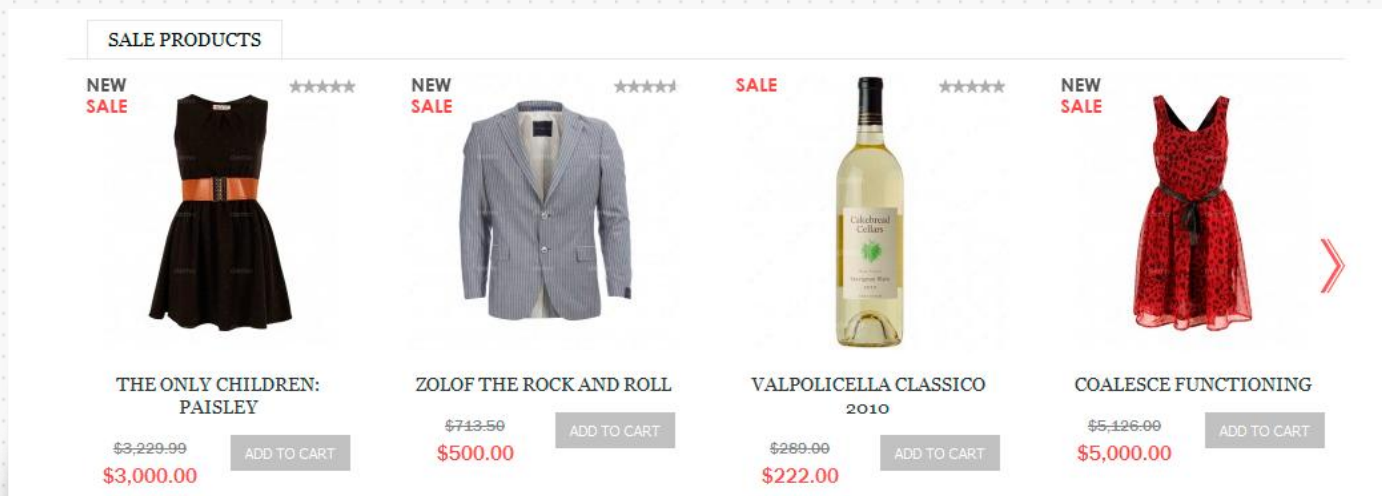

Theme Options

For easing the template configuration it has been created small module. You can see the template configurations on the page 'System -> Configuration'.

I have provided a few options, which you can manage from admin panel without editing template:

1. General Options

    Menu type:

        Available Options: Wide Menu, Superfish Menu

        By Default: Wide Menu

    Additional Navigation Link:

Troubleshooting

1. I'm getting 404 not found when trying to open theme admin pages.

Log out from Magento admin panel, clear the store cache under var/cache, and log in again.

2. After the extension installation the store gives an error, or blank page.

Log out from Magento admin panel. Change the owner of the extracted extension files to the web server user and set 775 permissions on them. Clear the store cache and try again.

3. My configuration changes do not appear on the frontend.

Clear the store cache under var/cache, clear all browser cookies for your store domain and refresh the page in your browser.

4. If you have more questions you need to make a request via our website and we will help you

Using Magento
Helpful Resources

There are tutorials, articles, forums and screencasts to help you learn how to use Magento and its features. This section provides helpful links to instructions on commonly used Magento features, but you can learn even more by exploring these resources:

- [Knowledge Base](#)
- [Screencasts](#)
- [Magento Wiki](#)
- [Magento Forum](#)

Using Magento

Categories

To help customers browse your online store efficiently, you will most likely need to organize your products into categories and sub-categories. Please read the following documentation to learn how to create and manage categories.

- [Tutorial: Creating and Managing Categories](#)
- [Admin Panel > Categories > Manage Categories](#)

Using Magento
Adding Products to Your Online Store

You will, of course, need to know how to add products to your online store. The following links will help you set up, organize and manage your products, and add images and product descriptions.

- [Tutorial: Creating Products](#)
- [Magento Screencast: Creating a Simple Product](#)
- [Adding a New Product](#)

Additional Help

For more information on using Magento, please use the resources mentioned in the **Using Magento** section of this documentation.

Thank you for purchasing Blanco for Magento!
